

THE EAST PROJECT

The project is aimed at strengthening the professional development of young people active in the field of environmental and sustainable development, as well as targeting the issue of promoting the learning mobility of young people, enhancing skills and abilities to be gained by means of NF and informal learning activities.

The partnership will carry out:

- exchange of best practices in the field innovative use of environment;
- short training session;
- multilingual spot on innovative environmental use;
- webspace to support the implementation of the project activities;

The **target groups** for the new NF environmental curriculum are youth workers, young people active and/ or potentially interested in taking on the field of environmental and sustainable development, as well as organizations providing environmental education (FE&NFE) to the young generations.

EAST Project runs from 01st June 2017 until 31th May 2019

NON FORMAL AND INFORMAL LEARNING

Education is one of the most important aspects for the improvement of life quality of youth around Europe

The need to continuously develop professional and transversal skills for youth is of vital importance.

A method for reaching this objective is offering by EAST project thanks to youth training opportunities: an integrated sequence of planned educational experiences where Formal Education is permeated with Non Formal and Informal learning.

ACTIVITIES & TRAINING

EAST means Environment, Activities, Studies and Exchanges

The project propose activities of best practices exchange to elaborate and test the NF environmental educational program in order to respond to the need to develop professional and transversal skills for youth

The training event with youth workers foresees such elements as: mix of Formal, Non Formal and Informal Learning.

LOCAL COMMUNITIES

The impact of the EAST project is going to be extended on local communities, which will host the project activities, those of regional, national, European, when considering the impact on the policy makers the elaborated curriculum of new NF environmental education for youth will produce.

The E.A.S.T. project activities are designed to be repeatable in different EU contexts and the establishment of collaborative agreements with stakeholders of the territory, will inform the actors of the local context in relation to the project and its methodology.
